Information about the service

Modems and access to technology

A wireless modem or router is not included in the standard installation. These can be purchased in addition to your plan fees. Payment plans for the equipment can be negotiated on a per customer basis. Any equipment supplied by CWNet is considered to be "in warranty" for manufacturing faults and defects for 12 months from the date of installation. This warranty does not cover damage caused to the modem by outside forces as per the manufacturer's specifications. If a customer chooses to use their own Wi-Fi equipment, CWNet will not be held responsible for any warranty over the product and we will not offer free technical support with regards to the equipment outside of our network.

We may change the technology that we use to provide your service from time to time. You must provide all reasonable assistance to implement the change. We will let you know before we make this kind of change unless the change will benefit you or have a neutral impact on you and we do not require your assistance to implement the change.

Speeds

**Fixed Wireless Broadband has a great success rate close to the Download and Upload speeds, Fibre speeds connected to our towers ensures speeds are stable.

The “actual” speed that a customer will experience while using the Internet depends upon a variety of conditions, many of which are beyond the control of an ISP such as CWNet. As such CWNet, like all other ISPs, advertises speeds as “up to” a particular level, and does not guarantee them. These conditions include:

1. Performance of a customer’s computer, including its age, processing capability, its operating system, the number of applications running simultaneously, and the presence of any adware and viruses.
2. Type of connection between a customer’s computer and our equipment.
3. The distance packets travel (round trip time of packets) between a customer’s computer and its final destination on the Internet.
4. Congestion or high usage levels at the website or destination.
5. Congestion or high usage levels at the premises
6. Gating of speeds or access by the website or destination.
7. The performance of the cable modem you have installed.

Fair Use Policy

You must comply with our Fair Use Policy and not use your services in an unreasonable or fraudulent manner or in a way that detrimentally interferes with the integrity of the network. We may take action if you breach the Fair Use Policy, including suspending or cancelling your service.

Satisfaction guarantee

If you're moving to the CWNet network for the first time and you're not happy with your service for any reason, let us know within 30 days of connection and we'll do our best to fix it or you can cancel your service without penalty.

Payments

Your monthly service fee is due on the original day of install of every month. Fees will be automatically debited from your nominated credit/debit card. Any “non-standard installation fee” or wireless equipment fee is payable on the first invoice unless otherwise agreed. Any service callout fees throughout your service period will be payable in the next monthly invoice due.

Charges for other work

For 'customer at fault' call outs, service call charges will apply at a rate of \$129.00 (inc. 30min) and then \$60.00/hr thereafter.

All charges outside of "standard" 1.8m mount installations will be on an as needed basis and quoted prior to any install commencing.

Checking your services and account

To check your usage or manage your account and services, register and login to **www.cwnet.duxadmin.com** or via the link on our website.

Can I cancel my plan?

You may cancel your plan at any time by calling us on 0429 659 220, messaging us at www.cwnet.com.au or emailing accounts@cwnet.com.au, we will then issue a "Account Closure" form for completion. When you cancel, your service will be disconnected immediately unless otherwise agreed and you will need to pay any remaining cost of your hardware, accessories or services in full. We won't refund any money you've already paid as per our T&C. (www.cwnet.com.au/tc/).

Can CWNet change my plan?

From time to time we may make changes to your plan, or we may move you to a new plan (which may cost more). If we change your plan or move you to a new plan and we reasonably consider that change or move has more than a minor detrimental impact on you:

We'll give you at least 30 days' notice before making changes or automatically moving you to the closest available plan.

If you don't like the changes or the new plan, you can cancel your plan. If you cancel your plan, you'll need to pay out the remaining cost of your hardware, accessories or services in full.

Need help?
